

# 2015-12-01 Meeting notes

## Date

01 Dec 2015

## Attendees

- Kelly McCann
- William Hayes
- Julia Kozlovsky
- Anthony J. Bargnesi
- Dexter Pratt

## Goals

## Discussion items

Time	Item	Who	Notes
	Overview	Everyone	
	Soft release of index 1.3	Dexter	Doing soft release of index 1.3, testing server soon to be up - try BEL and CX Documentation at <a href="http://www.indexbio.org">www.indexbio.org</a> Plans to CX-ify BEL BELRB + translator plugin functionality to be wrapped in service -> gateway in/out of index and Cytoscape infrastructure for BEL; Submit Agent may be relevant tool for this goal ~ January
	(response)	Tony	BEL ruby module provides good translator plugin Plans to implement conversion: http request bodies streamed in -> converted format streamed out
		William	Question from Juliana: name confusion with 'BEL evidence' vs. 'BEL nanopub (proposed new name)': old extracted text vs. statement + citation + summary text + annotations + metadata <ul style="list-style-type: none"><li>• jargon name discussion for 'evidence':<ul style="list-style-type: none"><li>• rename proposals: 'BEL quantum'/'BEL atom': the minimum structural component</li></ul></li><li>• 'Summary Text'<ul style="list-style-type: none"><li>• rename proposal: 'supporting text'</li></ul></li></ul> Discussion to be continued on Google Group
		Tony	Working on filling in infrastructure: <ul style="list-style-type: none"><li>• annotations</li><li>• autocomplete</li><li>• storage of BEL evidences</li><li>• plugins integrated with BEL RB</li></ul> Pre-release of BEL RB (includes new plugin APIs) features efficient saving of bel document scripts and integration of ApacheJenna w/ BEL RB(ruby-rdf on github)

## Action items
