

Convert BEL to BioPAX

Description:

[BEL \(Biological Expression Language\)](#) is a language for representing scientific findings in the life sciences in a computable form. BioPAX is a data format for encoding biological pathways.

This project goal is to convert between BEL statements and BioPAX (Level 3) biological pathways. Further comparison between these two formats can be found at [A Comparison of BEL V1.0 and BioPAX \(Level 3\)](#).

Result:

The result of this project will be a tool for conversion between [BEL](#) and [BioPAX](#).

Prerequisites:

BioPAX
