

# Google Hangouts

The following steps walk through how to set up a Google Hangout on Air using the OpenBEL Google+ account.

1. Go to the [OpenBEL Google+ page](#).
2. Open the left menu under the **Profile** dropdown.
3. Select **Hangouts**.
4. Select either the **Hangouts On Air** tab or the **Video Hangouts** tab.
  1. Or use the OpenBEL links:
    1. [OpenBEL - Hangouts On Air](#)
    2. [OpenBEL - Video Hangouts](#)

A **Video Hangout** opens an immediate video conference session to only the folks you invite. The audio/video is not saved.

A **Hangout On Air** allows you to create an immediate or schedule a future video conference that can be open to the Public. The audio/video can then be shared on the [OpenBEL Youtube channel](#).
