

Quick Start

Quick Start

Visualizing a Knowledge Network

1. Download Cytoscape (2.8) at cytoscape.org
2. Install KAM Navigator Cytoscape plugin by following the [installation guide](#)
3. Connect the KAM Navigator to the public demo server
 - Set the Webservice Location (WSDL URL) to: <http://demo.openbel.org/openbel-ws/belframework.wsdl>
4. Load up our example Knowledge Networks
 - Select your target Knowledge Network
 - [Explore](#) the KAM Navigator plugin

For further information go to the KAM Navigator [user manual](#)
